The Report Submission of members

To facilitate and reduce time from submitting report in paper format of Internet trading report (quarterly), customers' late payment for securities purchasing report and customers' late delivery for securities selling report (monthly), the SET has already developed the program of BRS on-line for members. Consequently, members have to submit those reports via BRS on-line since January 2001.

In the case that members have to pay checks for penalty fine, members have to send those checks at the Market Regulation Department, 9th floor and members can get the receipts at the Accounting Department, 8th floor 2 days after report due date.

Moreover, according to the SEC revocation of submitting securities trading for members' portfolio report, members don't have to submit that report to the SET as well.
